SMART CARDON DIOXIDE, TEMPERATURE, AND
HUMIDITY METER

Connected
AirWits CO2

Connected AirWits CO2 is a connected carbon dioxide (CO2),
temperature, and humidity metering device for real and
accurate indoor air quality monitoring with ultra low lifetime
costs.

With adjustable measurement and sending interval and easy
installation, the device is perfect for green building certifications,
ESG and HVAC monitoring requirements and indoor air quality
safety of all kinds of indoor spaces.

Versatile, connected, maintenance free, ultra low cost, powerful,
accurate - perfect solution for easy, long term and cost efficient
indoor air quality measurements with real carbon dioxide
sensor.
